

Robust and precise in application.

The robust helical gearboxes excel through their high permissible radial forces, finely graduated speed-reduction ratios and low backlash.

They are available in 1-stage, 2-stage and 3-stage versions with torque of to 5,920 Nm and a ratio of up to $i=435$.

Models

- 1-stage, 2-stage and 3-stage gearboxes
- Solid shaft with keyway
- Foot or flange mounting

GST helical geared motors

Gearboxes

When combined with three-phase AC motors and servo motors, our helical gearboxes form a compact yet powerful drive unit. Numerous drive-end and output-end options allow precise matching of the drive to your specific application.

Models

- With three-phase AC motors in line with the ErP Directive in the power range from 0.06 to 45 kW
- With servo motors in the power range from 0.25 to 20.3 kW
- As a Drive Package with the decentralised Inverter Drives 8400 motec, covering the power range up to 7.5 kW.

Matched to your environmental conditions

Gearboxes with	Three-phase AC motors	Servo motors
Degree of protection		
EN 60529	IP55	IP54 / IP65
Approvals		
	cURus, EAC, CCC and UkrSepro
