Search aids for »EASY Product Finder«

The use of signs and search operators in the »EASY Product Finder« is a convenient means of obtaining results quickly and specifically when carrying out a product search.

- The search result can be narrowed down further by using the product filters.
- Upper and lower case can be ignored.
- In order to combine several conditions, the individual search entries are separated by spaces.

Example 1:

- You are searching for an inverter of the 8400 StateLine series with a power of 0.25 kW.
 - Entry in the search window: "8400 stateline" 0.25 kW

Example 2:

- You are searching for a synchronous servo motor of the MCS type with a g500-H helical gearbox. The power required is to be approximately 5 kW at an output speed of 100 - 105 1/min.
 - Entry in the search window: MCS ~5 kW g500-H 100..105 1/min

Tip!

Insert the name of the applicable product filter in front of a value to achieve optimum search results. Example:

- The entry **ratio ~43** will find all gearboxes and geared motors with a ratio of 43 ±10 %.

Search window

You can enter punctuation marks/symbols and search operators in the search window to narrow down search results.

When you start making an entry, a list with suggestions will open.

- The suggestions are adapted in line with the search words entered.
- Depending on the search words entered, the suggestions are narrowed down in a reasonable fashion.
- Transferring suggestions to the search window:
 - Click the suggestion using the mouse, or select the suggestion by using the <↑> <↓> keys and by pressing <Enter>.
- Press <Esc> to close the list of suggestions.

Signs and symbols

Sign	Used for...	Example
" "	Search for strings with a space • A number with a unit (e.g. 5.5 kW) must not be put in quotation marks.	"mh (ie2)" searches for MH motors
=	Search for exact numbers	10 or =10 searches for products with the value 10
~	Search for numbers with a $\pm 10\%$ tolerance	~10 searches for products with values from 9 to 11
*	Wildcard for the search for any strings	e82ev251* searches for variants of the 8200 vector device series with 0.25 kW
?	Wildcard for the search for any sign	*ev251* searches for products including EV251
< <=	Search for numbers that are less than/less than or equal to	<10 searches for products with the values 9, 7, 6 ...
> >=	Search for numbers that are greater than/greater than or equal to	>10 searches for products with the values 11, 12, 13, ...
..	Search for a value range	10..25 searches for products with values from 10 to 25
,	Search for numbers with decimal separators in the languages 	1.5 searches for products with the value 1.5 in the corresponding languages
.	Search for numbers with decimal separators in the languages 	1.5 searches for products with the value 1.5 in the corresponding languages
A	Search for current values	5.5 kW or 5.5kW searches for products with a power of 5.5 kW 1500 1/min or 1500 /min or 1500/min searches for products with the speed 1500 1/min • There must always be a space in front of 1/min
kW hp	Search for power values	
rpm 1/min /min	Search for speed values	
Nm	Search for torque values	
Hz	Search for rated frequencies	

Search operators

Search operators are words that can be added to search requests to narrow down the search results.

Search operator	Used for...	Example
<Product group>	Search within a product group • Controls, inverters, geared motors, motors, gearboxes, accessories, engineering tools	4kw geared motors searches for geared motors with 4 kW
<Product filter>	Search within a product filter of the respective product group	"mh (ie2)" motor series searches for motors of the MH (IE2) series cooling blower searches for motors with forced ventilation
